

# Recognition

Welcome to the Cisco Networking Academy Recognition Program!

Everything we accomplish through Cisco Networking Academy reflects the efforts and contributions of our instructors, academies, and partners. To demonstrate how much we value your support and participation in the program, we established a global program to recognize important milestones and achievements of community members.

Please visit the pages below to understand the criteria and eligibility requirements for each type of award, and to see a list of instructors and academies that have been recognized recently.

## Award Categories

**Instructor Excellence**

**Academy Excellence**

**5 Years of Service**

**ASC Awards Program**

## Academy Excellence

The annual Academy Excellence awards recognize academies in each region for growth, curricular excellence, and contributions to the future success of Networking Academy students.

**Academy Growth**

[View Current Winners](#)

The annual Academy Growth award is presented to one academy in each region for consistent gains in Networking Academy participation in recent years and dramatic growth in percentage of participation compared to the previous year.

### Criteria

- Percentage growth in class participants compared to previous year

### Eligibility

- Growth in number of Networking Academy students during two years prior to award year

**Academy Advancing Employment**

[View Current Winners](#)

The Advancing Employment award recognizes the academy in each region that promotes Cisco certification to enhance the career prospects of their students.

### Criteria

- Number of certification voucher requests during the calendar year of the award.

### Eligibility

- All academies are eligible to receive the Advancing Employability award

## Academy Curricula Excellence

The Academy Curriculum Excellence awards are presented annually to academies for achievement in teaching Networking Academy courses. In each region one academy is recognized for each of the following curricula: IT Essentials, CCNA, CCNA Security, CCNP, and IoT.

**IT Essentials**
